My dear Mr Garrett

Am indeed glad to have your letter of 13th inst. — I want you to remember me in New York after we both return there, shall hold it in anticipation. Am leaving here the fourth or fifth of September, returning to Florence and sailing on the "Duilio" from Genoa October 10th reaching New York the 20th. after middle of November am at your service and if in any way can be of any service you command me. I often, so often, feel lonesome for the coins and that I had not included them, some time when I see you will explain how it came about. Never had a transaction with a more agreeable or satisfactory man, hence he took much that I would not have otherwise have parted with. Had I realized how much would have missed their companionship would have felt the impossibility and it is one reason why ~~[illegible]~~

desiring your acquaintance. Shall get on better myself by knowing you enjoy them. don't understand me I regret the change in ownership, but I want to know you well enough to know you cherish them. then I shall be all right. I am so sorry you are confined as you are. if could be of the least good to you it would be a pleasure to me. I appreciate Mrs Carter so much for writing of where you are. She is a splendid woman and the right sober indeed

Faithfully yours
